SUMMARY

B.Tech Computer Science Engineering (Cyber Security) student at Bennett University with hands-on experience in AI-powered applications, frontend development, Linux systems, networking, and IT support. Skilled in Python, React, JavaScript, C++, SQL, and full-stack development through internships, hackathons, collaborative projects, and AI-integrated solutions.

EDUCATION

Bennett University, Greater Noida, UP | 2024–2028 | CGPA: 8.02
B.Tech in Computer Science Engineering (Cyber Security)

Birla Public School, Pilani, Rajasthan | 2024 | 81.6%
Senior Secondary School Certificate (Science)

St. Marks Sr. Sec. Public School, New Delhi | 2022 | 91%
Secondary School Certificate

INTERNSHIP

JK Tech — IT Intern | Jun 2026–Jul 2026
• Prepared and deployed 60+ Windows laptops by joining systems to the domain, configuring settings, and ensuring device readiness.
• Provided IT support and troubleshooting, including RAM installation, battery replacement, and connectivity issues.
• Assisted with networking/system administration, user support, connectivity troubleshooting, and system updates.
• Worked with Microsoft 365 Admin Center, Microsoft Azure, Microsoft Defender, Active Directory, and IT ticketing/helpdesk systems.

TECHNICAL SKILLS

Languages: Python, Java, C++, SQL, JavaScript, Bash | Frontend: HTML, CSS, React, Responsive UI Development | Tools: Git, GitHub, Linux, Windows, VS Code | Cloud/Admin: Microsoft Azure, Microsoft 365 Admin Center, Active Directory, Microsoft Defender | Cybersecurity & Systems: Networking, Linux Administration, Endpoint Security, Operating Systems | Concepts: DSA, OOP, REST APIs, Problem Solving

PROJECTS

SkillForge AI — AI-Powered Personalized Learning Platform | React, Python, AI/ML, REST APIs, Database | September 2026
• Developed an AI-enabled platform identifying competency gaps and generating role-specific learning recommendations.
• Built responsive learner/admin dashboards with skill profiles, competency tracking, and adaptive learning workflows.
• Integrated AI-powered assessments generating source-grounded MCQs/quizzes with automated evaluation and feedback.
• Implemented Profile → Assess → Recommend → Learn → Reassess to continuously update competency scores.
• Contributed to API-driven architecture for learning resources and scalable, cloud-ready deployment.

NeuralFort — Mental Health AI Assistant | Python, React, APIs, AI Integration | April 2026
• Developed an AI-powered conversational assistant with contextual interaction and mental health support.
• Built responsive frontend interfaces, backend APIs, and prompt-engineering workflows; designed architecture for future sentiment analysis and personalized recommendations.

AgriSustain — AI Farming Assistant | React, Python, AI/ML, Dataset Integration | April 2025
• Built an AI agriculture platform providing crop recommendations, soil insights, and sustainable farming guidance.
• Collaborated during Hackaccino 2025 on frontend workflows, agricultural datasets, recommendation-system integration, and prototype presentation.

USB Firewall for Linux | Bash, Linux, udev, sysfs, Kali Linux | November 2025
• Built a Linux USB Firewall detecting/blocking unauthorized devices in real time using udev rules and sysfs.
• Implemented whitelist authorization, automated monitoring/blocking, and secure logging for endpoint security and audit tracking.

Responsive Website Templates | HTML, CSS, JavaScript | May 2026
• Designed responsive multi-page templates using reusable frontend components and mobile-first layouts.
• Focused on clean design systems, responsiveness, maintainability, navigation, and customizable portfolio deployment.

HACKATHONS & LEADERSHIP

Smart India Hackathon — Internal Hackathon, Bennett University | 2026
• Collaborated in a 6-member team to develop SkillForge AI for competency-gap analysis and adaptive learning; contributed frontend, database connectivity, AI workflows, and APIs; project advanced to Top 100 in the university internal SIH 2026 selection.

Hackathon Participant — Hackaccino, Bennett University | 2025
• Built AgriSustain in a team; gained practical exposure to rapid prototyping, AI integration, frontend development, and technical presentation.

Smart India Hackathon — Internal Hackathon, Bennett University | 2024
• Contributed to a smart trip planner web application generating optimized itineraries based on user preferences and budgets.

Delegate — Model G20 Summit, Birla Public School | 2023
• Represented the European Union; conducted policy research, drafted position papers, and collaborated with delegates.

Vice Chair — Birla Public School Model UN | 2023
• Moderated committee discussions, reviewed resolutions, and coordinated structured debates.

CERTIFICATIONS

2026: Big Data 201 — Infosys Springboard | Data Structures in C++ — Scaler | Introduction to Cybersecurity Essentials — IBM (Coursera) | The Bits and Bytes of Computer Networking — Google (Coursera) | Operating Systems and You — Google (Coursera)

2025: Technology Job Simulation — Forage | Data Structures and Algorithms — Infosys Springboard | Introduction to Modern Database Systems — Saylor Academy | Introduction to Linux — The Linux Foundation | Core Java Programming Revisited — Infosys Springboard

2024: Introduction to Python — Infosys Springboard | Python Fundamentals — Infosys Springboard
